

E8 ELLIPTICAL

The new E8 Vertical Trainer from Circle Fitness takes incline training to a whole new level. The new E8 is equipped with a unique incline (0-15 degree) design that ranges from 21"/53cm to 27"/69cm which allows a broad range of users, from the inexperienced to elite athletes, to get their ideal workout! Next, we added incline feature to engage more lower body muscles to tone and burn more calories, while the upper body arms provide the user with a total body workout experience! Lastly, we implemented intuitive on-the-fly incline and resistance adjustments to keep you focused on your workout.

FEATURES OF THE CIRCLE FITNESS E8 ELLIPTICAL

Incline Training

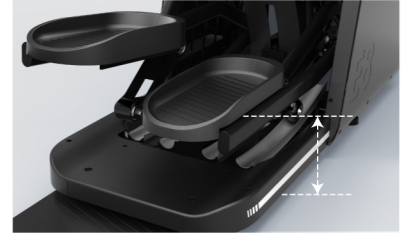

Users to go from a short stride (21"/53 cm) to long stride (27"/69 cm), walking to running, climbing to lunging, allowing them to target different muscle groups.

Incline Control

Offering a variable incline of 0-20 levels with the unique stride design, controlled by conveniently located paddle-style levers, making on-the-fly incline changes simple.

Low Step-Up Height

Low step-up height (9.3" /24cm) aids the user by providing safe entrance and exit from unit.

Stepping Pad

For stepping on/off the equipment easily while preventing others from accessing to the workout area.

Wireless Charger (Sport and Elpus console only) & USB

Wireless charging station is perfect for your phone and small electronic devices.

Reading Rack & Storage

Integrated rack can accommodate reading materials and other personal items.

HR Sensors & Telemetry

Monitoring heart rate is simple with equipped handrail sensors or optional wireless telemetry strap while allowing the user to maintain a firm grip for consistent heart rate readings and quick control.

Bottle Holder

Removable water bottle holder for easy cleaning

Adjustable Fan

The 2 speed and adjustable fan keeps the user cool throughout their workout.

CircleFitness.com

Here at Circle Fitness, we have been providing high quality, efficient, easy to use, and durable fitness equipment for twenty five years. Quality is foremost when it comes to our equipment. We fully assemble each piece of our equipment in the factory to ensure that every feature and component operates as it should, and it can be easily assembled without problems. Very few companies in our industry perform this level of quality control. Our top tier quality is a result of using high quality materials in everything we build. We use military grade eight bolts to ensure a stable and reliable machine. These standards allow our products to offer full commercial quality even on light commercial products.
